324. PRODUCT OVERVIEW

Tricorp is the European brand for workwear. As one team, we work together with all colleagues to develop and deliver the best and most sustainable workwear for every professional. In over 30 years, we have built a dealer network of over 1,500 dealers and are active in 18 countries.

At Tricorp, we believe it's important that workwear is safe, high-quality, and functional, but above all, comfortable, fashionable, and durable. To truly dress every professional, we offer a wide size range, from XS up to 8XL. By maintaining our own inventory of over 18,000 items and delivering within 24 hours, we are incredibly flexible and customer-focused.

Besides our stock items, we also specialize in custom work, allowing us to meet the specific needs of our customers.

1500 DEALERS ACTIVE IN 18 EUROPEAN COUNTRIES

LOOK GOOD. WORK BETTER.

THE ADVANTAGES OF TRICORP

- ☑ Modern and certified sustainable workwear since 1993
- ☑ Wide range of sizes from XS to 8XL
- ☑ High quality standards ensure a long lifespan of our products
- ☑ Fast delivery

COLLECTION STRUCTURE

CLEAR. TRANSPARENT. MADE FOR YOU.

To make choosing easier, we have reorganized our collection into three clear main groups: Workwear, Safety and Specials.

With this new structure, you can find what you are looking for faster, see at a glance which line fits your work, and create combinations more easily. Together, we build a uniform, professional appearance for every team.

WORKWEAR

FUNCTIONAL. COMFORTABLE. REPRESENTATIVE.

The Workwear collection from Tricorp is designed for professionals who give their best every day. From recognizable Bicolor corporate identity concepts to sporty Unicolor basics and representative clothing. Whichever line you choose, you always contribute to the bigger picture. LOOK LIKE A TEAM. WORK LIKE A TEAM.

Our Workwear collection is developed for every professional. From the construction site to the office: Tricorp offers workwear that fits your job and your team. We distinguish three categories:

BICOLOR

Corporate identity concepts that make teams visible as one:

- Bicolor REDEFINED (new & sustainable)
- Bicolor Classic (the original line)
- Bicolor Contrasting Seams (recognizable stitching design)
- Bicolor Accent (subtle accents, sustainable)

UNICOLOR

Strong basics in a single color, divided into four lines:

- Unicolor REDEFINED (new & sustainable)
- Originals (solid foundation, reliable quality)
- Comfort (stretch, CoolDry, refined finish)
- RE2050 (modern, sporty and sustainable)

REPRESENTATIVE

For those who need to make a stylish impression:

- Shirts and blouses
- Premium workwear with a smart appearance

SAFETY

VISIBLE.
SUSTAINABLE.
PROTECTED.

For professionals working in high-risk environments, safety is not an option but a necessity. Tricorp offers a complete Safety range, divided into two categories: High Vis and Multinorm.

Within Tricorp's Safety collection, you will find clothing that meets the highest standards of visibility and protection.

HIGH VIS

Clothing designed to stand out. From recognizable Bicolor designs to durable RWS variants:

- High Vis: with High Vis REDEFINED, High Vis Bicolor and the Bicolor EN ISO 20471 items
- High Vis RWS: Rijkswaterstaat (RWS) and Revisible (sustainable RWS line)
- Clothing for traffic controllers
- Reflective REDEFINED (medium risk safety clothing in accordance with EN 17353)

MULTINORM

When visibility and protection against multiple risks are required, choose our multinorm clothing:

- In neutral Ink color
- Or with extra visibility in Fluor Yellow

Think of protection against heat and flames, liquid chemicals, welding splashes and related work, and the thermal hazards of an electric arc. Multinorm also offers antistatic clothing.

SPECIALS

CUSTOM-MADE.
UNIQUE.
NEXT LEVEL.

With Tricorp Specials, we develop tailor-made workwear from 250 pieces upwards, so the clothing fits perfectly with the unique needs and style of your company. As an organization, you have the freedom to use all your creativity to create a unique, uniform and recognizable appearance. With its own design department, Tricorp creates a unique product for your organization. Craftsmanship and the latest software enable us to turn ideas into perfectly fitting workwear.

It's often in the details: buttons in a slightly different color for polos, perfectly aligned with your corporate identity, or stitching in a contrasting shade.

Whether you're looking for uniformity for your team, a unique look for an event, or simply tailor-made clothing for your organization. At Tricorp, anything is possible!

DID YOU KNOW...

... By investing in custom-made workwear, you can save costs in the long run in a smart way? This is possible thanks to the use of sustainable materials and innovative technologies, which extend the lifespan of the clothing.

REDEFINED is the latest innovation in workwear. It is a modern collection inspired by the shapes and colours of nature. This collection combines innovative designs with a focus on comfort and sustainability, with the statement: Looking good is a performance too.

With REDEFINED, Tricorp is redefining how modern professionals dress. No more compromises between style and functionality. This collection shows that both can go hand in hand. Companies that want to stand out and provide their employees with optimal support should not miss this.

“LOOKING GOOD IS A PERFORMANCE TOO”

Tricorp’s vision on workwear is clear: looking good is also a performance. That idea is the basis of REDEFINED. Just as a well-designed work process leads to better performance, well-designed clothing contributes to the confidence and appearance of professionals. REDEFINED is therefore much more than just a new line of clothing. It is a well-thought-out concept, focused on the future of workwear in every industry.

ONE DESIGN, FOUR APPLICATIONS.

The starting point for the REDEFINED collection is its modular design: one uniform style offered in four lines, each with its own application:

Unicolor

Sleek and unambiguous in one colour.

Bicolor

Modern and distinctive with two colours matching a company’s corporate identity.

Reflective

With subtle reflective accents for style and visibility.

High Vis

For maximum safety in high-risk workplaces.

REDEFINED

GOOD. BETTER. BEST.

TROUSERS

The work trousers are an important innovation within the REDEFINED collection. The Unicolor line includes more than 20 different new trousers, offering every professional a suitable pair of work trousers according to the "good-better-best" principle.

Basic work trousers

These work trousers are based on the well-known Twill trousers.

Good: 2-way stretch

These are lightweight work trousers made from organic cotton and recycled polyester, with 2-way stretch. These trousers carry the ProWash label, which means they are suitable for industrial cleaning and washable at 60°C.

Better: Functional stretch

Basically similar to the 2-way stretch work trousers but with 4-way stretch in crucial areas (in the crotch, on the seat and in the knee bends) for extra freedom of movement

Best: 4-way stretch

Fully stretch without elastane, made from elastomultiester and recycled polyester. Robust, wear-resistant and suitable for recycling. All types of trousers are available in five versions:

- Work trousers without knee pockets;
- Work trousers with knee pockets;
- Work trousers with knee pockets and tool pockets;
- Women's trousers;
- Shorts.

Softshell Redefined

Hooded Luxury
Softshell Redefined

Hooded Softshell
All Weather Redefined

SOFTSHELLS

The softshells in the Unicolor line are also available according to the “good-better-best” principle.

Good: Softshell Redefined

Sturdy and functional jacket made from 92% recycled polyester and 8% elastane with a breathable PU membrane. Water-repellent, windproof and featuring stretch, adjustable waistband and handy pockets. Available in Black, Ink and Anthracite, sizes XS–5XL.

Better: Softshell Hood Luxe Redefined

Luxury softshell with detachable hood, reflection and extra protection. Made from 100% recycled polyester with TPU membrane, EN 14058 certified. Available in Anthracite, Black, Bordeaux and Ink, sizes XS–5XL.

Best: Hooded Softshell All Weather Redefined

All-weather softshell with high water repellency, mechanical stretch and reflective details. Made from 97% recycled polyester, EN 14058 certified. Completely windproof, breathable and durable. Available in Black, Ink and Anthracite, sizes XS–5XL.

REDEFINED: ALL YEAR ROUND

The REDEFINED collection consists of more than 90 items and offers a complete range of workwear for all seasons. From T-shirts, polo shirts, sweaters and cardigans to jackets and work trousers: REDEFINED supports professionals in every climate and every work situation. Tricorp is responding to the growing need for continuity and flexibility within clothing lines.

COLOURS THAT SPEAK

The colours of REDEFINED have been carefully chosen and all originate from nature. They tell a story, give character and fit seamlessly with modern style trends.

These colours have been carefully selected to complement each other, allowing every organisation to create its own look without compromising on uniformity.

SUSTAINABLE AND FUTURE-ORIENTED

With REDEFINED, Tricorp is also making clear choices in sustainability. All garments are made from recycled or organic materials. By producing responsibly, Tricorp contributes to a circular economy and a cleaner world for future generations. REDEFINED is not only a visual step forward, it is also a responsible choice.

Transparency and ease of use are central to the sustainable REDEFINED collection. Each item comes with a Digital Product Passport (DPP). A QR code on the item gives you direct access to all relevant product information: from origin and used materials to maintenance tips for a longer lifespan. The DPP adds value to every garment!

"Shaping Tomorrow starts today. At Tricorp, we believe that workwear is more than fabric and stitching. It is an extension of who you are and how you work. In 2024, we took major steps to make sustainability not just part of our products, but part of our entire way of thinking and acting. We are proud of what we have achieved, but even more motivated by what lies ahead. Together with our partners, customers, and colleagues, we are building a future in which workwear is naturally sustainable, fair, and innovative."

LET'S SHAPE TOMORROW. TOGETHER.

MISSION

Empower professionals and businesses worldwide with workwear that strengthens their appearance, performance, and comfort.

VISION

Tricorp rewrites the rules of workwear by always staying one step ahead with better designs, sharper prices, and stronger dealer margins – with sustainability at the core.

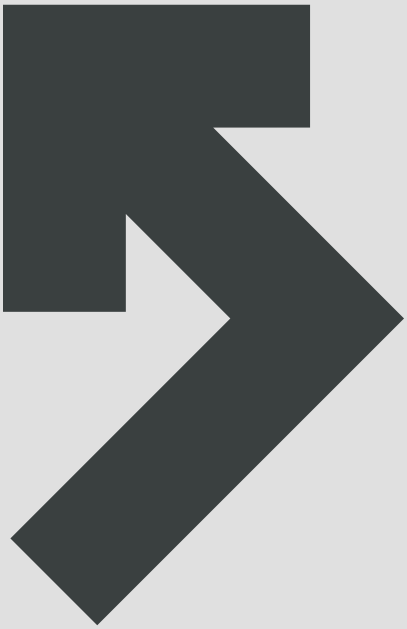

CORE VALUES

Sustainability is central to Tricorp. We focus on high-quality workwear: products that contribute to circularity and building long-term relationships with partners. Our focus is always on using today's resources for tomorrow's production. We take responsibility for how our products are made: safely and fairly.

Safety is our priority. We strive to make work pleasant, worry-free, and safe, without compromise. Collaboration is key, with respect for each other and everyone's background. We reject racism and extremism and embrace everyone, regardless of origin, religion, sexual orientation, or political beliefs. Transparent communication is essential, so we know what to expect from one another.

International cooperation is crucial, because together we achieve more than alone. We work as a team toward our brand ambition and strive for the best possible result. This requires dynamism: adapting to changes in our environment, new customer needs, and other stakeholders, such as our suppliers.

“FROM RAW MATERIAL TO WEARER; SUSTAINABLE IN EVERY STEP.”

RAW MATERIAL STRATEGY

Sustainable clothing starts with the right raw materials. But what is “low impact” depends on many factors: from cultivation and origin to production and chemical use. That is why Tricorp uses the Modint Fiber Matrix, combined with bAwear data, as a guideline for responsible material choices. We replace conventional cotton with organic cotton and switch to recycled materials. This lowers our CO2 emissions and significantly reduces water consumption. In fact, 76% of our water usage is in the raw material phase.

In addition, we are digitizing our design process with 3D patterns and virtual fittings, drastically reducing the number of physical samples.

CERTIFICATIONS AND QUALITY MARKS

OEKOTEX-100

- Standard for tested and certified textiles without harmful substances
- REACH-compliant
- Encourages eco-friendly production methods and minimizes the ecological impact of textile production.

GRS – Global Recycling Standard

- Standard for recycled materials and accountability chain
- Facilities from the recycling company to the final supplier meet social, environmental, and chemical standards
- Requires all stages of the textile supply chain to be certified, from recycling company to end product
- Includes traceability and strict rules for chemicals and dyes
- Recycled Content Standard (RCS) verifies and tracks recycled material throughout the chain, from source to end product

OCS - Organic Cotton Standard

- Standard for organic cotton
- Facilities from farm to final supplier must meet traceability requirements
- Certification required for all stages in the supply chain, from organic raw material to end product
- Preserves organic integrity
- **Better Cotton Initiative (BCI)** makes cotton production more sustainable by training farmers in eco-friendly cultivation and better working conditions

CHEMICAL MANAGEMENT

With our harmful substances policy, we actively reduce their use in our supply chain. We apply our own **RSL** and **MRSL**, based on leading guidelines such as **ZDHC (Zero Discharge of Hazardous Chemicals)** and Modint, and rely on strict certifications such as **OEKO-TEX® 100** and **GRS**.

In 2024, we finished phasing out PFAS from our products. This means our entire collection is **PFAS-free**, except for a few multinorm items where this is not yet technically possible.

AMFORI BEPI

Tricorp is a member of Amfori's BEPI initiative, which helps us better map the environmental impact of our factories. With a focus on energy consumption, CO2 emissions, water, waste, and nuisance, BEPI provides us with a structured approach to improve sustainability step by step, factory by factory, together with our partners.

AMFORI BSCI

For Tricorp, the BSCI initiative is an important tool to monitor and improve social working conditions at our suppliers. The BSCI Code of Conduct aligns seamlessly with Tricorp's own code and is based on international conventions, covering themes such as fair wages, no child labor, safe working conditions, and equal treatment.

RETOURLOGISTIEK EN RECYCLING

Since 2023, under the UPV legislation, Tricorp has been responsible for the full lifecycle of its products, from production to waste stage. This law stimulates reuse and recycling of textiles.

DE DOELSTELLINGEN ZIJN HELDER:

2025

50% reuse and recycling, of which:

At least 20% reuse
At least 10% reuse in the Netherlands
At least 25% of recycling is fiber-to-fiber recycling

2030

75% reuse and recycling, of which:

At least 25% reuse
At least 15% reuse in the Netherlands
At least 33% of recycling is fiber-to-fiber recycling

To achieve this, Tricorp is a member of Stichting UPV Textiel and works with partners in the chain on collection, processing, and innovation. We are also active in the Midpoint Brabant learning network, where Avans University will research return logistics in 2025.

In addition, we collaborate with Gaia Circulair: customers can return worn workwear via a "resource box." This clothing is sustainably sorted, with social impact, by people with a distance to the labor market, and then shredded into fibers or repurposed into Pour-bags.

SHAPING TOMORROW AND BEYOND

Creating impact is something we do together, guided by the 17 Sustainable Development Goals (SDGs). With Tricorp's social and environmental policies, we aim to make a positive contribution to these SDGs for a better future of our textile chain. Our focus is on the following SDGs:

SUSTAINABLE DEVELOPMENT GOALS

Sustainable Development goal 5

GENDER EQUALITY

We stand for equal treatment of everyone and are extra alert to gender-related issues both internally and in our supply chain.

Sustainable Development goal 8

DECENT WORK AND ECONOMIC GROWTH

We want our workwear to be produced under good and safe working conditions. We monitor issues such as overtime, the right to speak up, living wages, and workplace safety. Together with our suppliers, we work on a responsible procurement process.

Sustainable Development goal 12

RESPONSIBLE CONSUMPTION AND PRODUCTION

We work daily to reduce our footprint and make this transparent through impact sheets.

Sustainable Development goal 13

CLIMATE ACTION

Tricorp wants to know more process and product details and, together with partners in the chain, make conscious choices. To conserve resources, we focus strongly on long product lifespans, reuse, and suitable recycling.

Sustainable Development goal 17

PARTNERSHIPS FOR THE GOALS

We engage in collaboration with NGOs, trade unions, and other stakeholders to achieve our goals and foster dialogue.

TOGETHER FOR TOMORROW

At Tricorp, we want to contribute to a better world. Because good can always be better. That's why we support these social initiatives.

GROOT HART

Villa Pardoes

REDEFINED: SUSTAINABILITY IN A NEW FORM

With the introduction of our new REDEFINED collection, we take an important step toward our sustainability goals. This line is designed with a focus on long-lasting quality, recycled materials, and a more efficient production process. In this way, we not only offer our customers innovative workwear, but also help reduce our ecological footprint.

TRANSPARENCY WITH THE PRODUCT PASSPORT

Through our digital product passport, developed with Retraced, we make the full journey of each garment transparent: from raw material to finished product. This way, you know exactly where and how your Tricorp workwear is made.

"SHAPING TOMORROW, STARTS TODAY."

TRICORP DOME

EXPERIENCE THE TRICORP WORLD YOURSELF

In the Tricorp Dome in Gilze, everything revolves around the experience of Tricorp and its products. A constantly evolving, interactive showroom full of inspiration and innovation. We present our diverse collections in a unique way! With light, visuals, sound, and even scent, we stimulate all the senses and create an unforgettable experience.

Discover the articles in a dynamic way: watch videos, explore, feel and try on our premium items, and learn everything about the wide range of workwear that Tricorp offers. Sustainability is, of course, an integral part of the Tricorp Dome. The Rewear, RE2050, Accent, RWS Revisible and REDEFINED collections are presented extensively.

The Shop-in-Shop concept showcases all products and demonstrates how this concept can come to life in your own showroom or store. Looking for the right workwear or fresh inspiration? Then a visit to the Tricorp Dome is absolutely worthwhile! Receive tailor-made advice from one of our expert colleagues. You are most welcome!

SPORTY AND SOCIALLY ENGAGED

We are pioneers in the field of sports sponsorship. As the first workwear brand, we entered the world of football, motorsport, and ice hockey to expand our brand awareness. With the most modern and sustainable workwear, we outfit teams around the world who perform at the very top of their class. We enable teams to achieve the best possible results with Tricorp Workwear. Naturally, we also contribute to social development as a business partner of the Princess Máxima Center, ambassador of Stichting Groothart and Villa Pardoes.

TRICORP
WORKWEAR

OFFICIAL BUSINESS PARTNER PSV

We are proud to count a club like PSV among our Business Partners. At the beginning of 2021, PSV approached us with the request to supply workwear for their stewards and security staff. That was right up our alley, as market leader in the Netherlands, nothing is too much for us, and together with PSV we operate at the very top. We are both from Brabant, share a winner's mentality, and achieve success through teamwork. The stewards and security staff of PSV proudly wear our

OUR OWN BUSINESS ROOM

In the Philips Stadium, we have our own business room at our disposal, where we gladly welcome our customers and partners. At the start of our collaboration with PSV, we completely renovated this business room, including a bar in the shape of our logo. Our dedicated host serves the best (0.0) beers and provides excellent catering for our guests at every home match.

COOL CAMPAIGNS

Check out the great campaign video we recorded together with the PSV stewards and security staff:

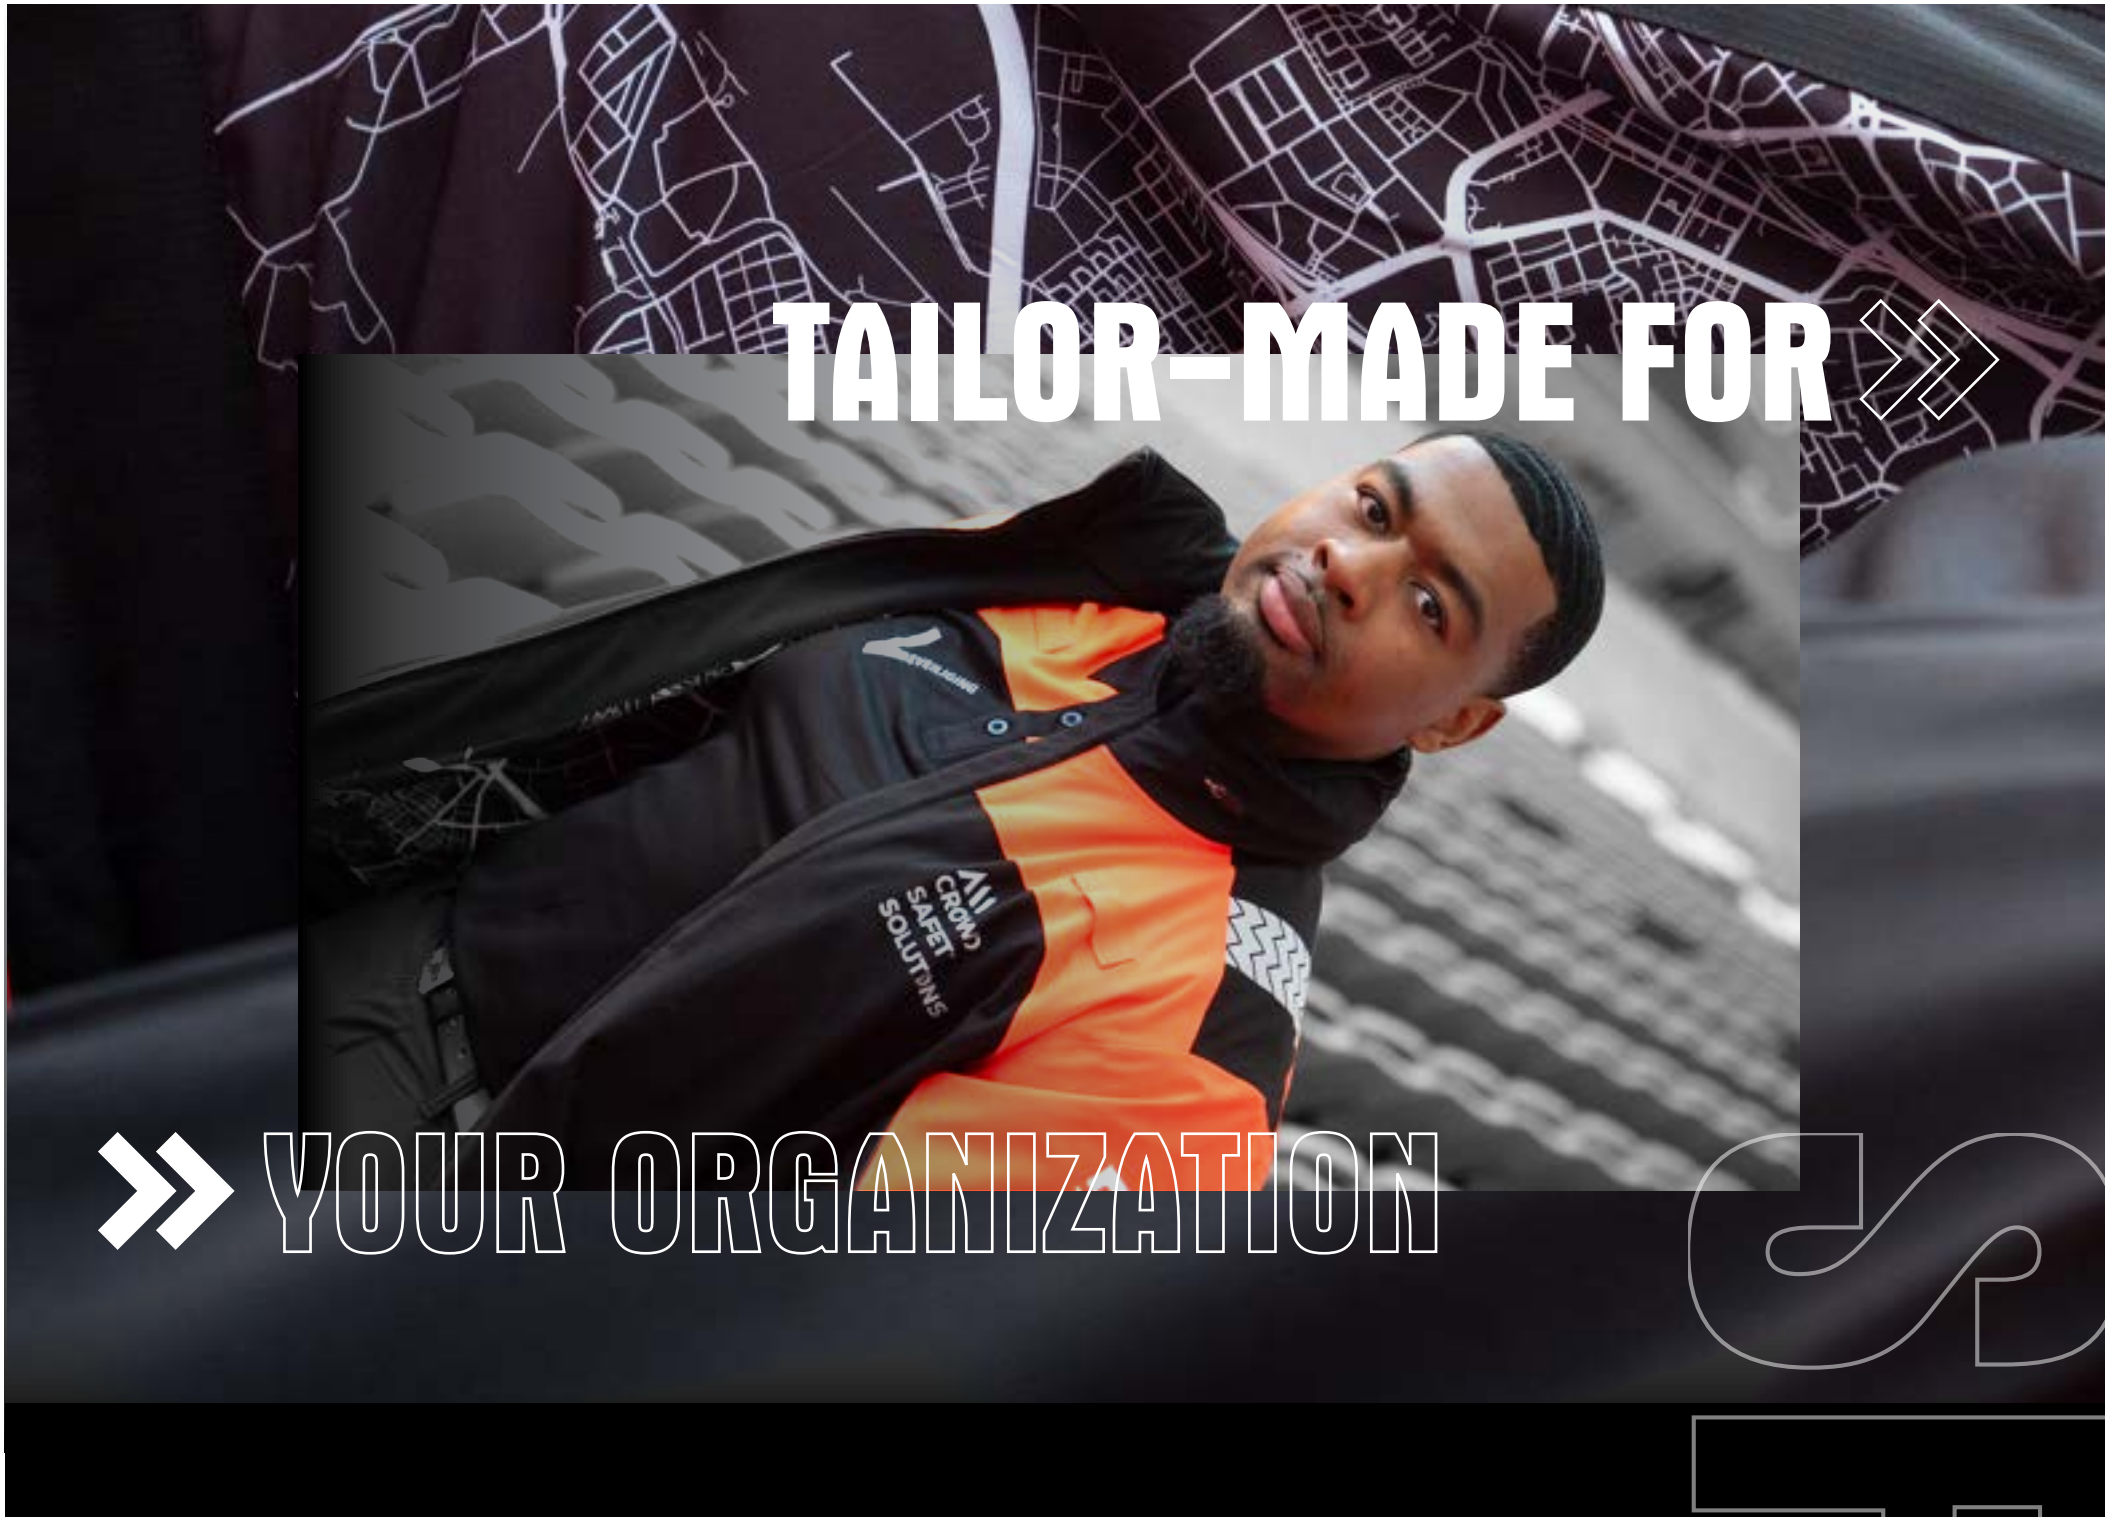

PREMIUM PARTNER KÖLNER HAIE

A new milestone in our European growth spurt! We are joining forces with the Kölner Haie. Just like us, the Haie play at the very highest level. From now on, our logos will shine on the jerseys of the Kölner Haie and in the stadium of this iconic club. This partnership marks an exciting step in our growth in the German market and underlines our commitment to supporting national sport. We are proud to contribute to their success and to make a strong statement together in the arena. Together with the Haie, we will push boundaries and further strengthen our presence in Germany. Go Haie!

MAIN SPONSOR TILBURG TRAPPERS

Tricorp is the main sponsor of the Tilburg Trappers for the next two seasons. And you, as a customer, benefit as well! Together with your clients, you'll have exclusive access to exciting matches and unique clinics with the Trappers players.

TAILOR-MADE FOR
YOUR ORGANIZATION

SPECIALS

WE CAN DO ANYTHING. YES, ANYTHING.

With Tricorp Specials, we offer tailor-made solutions. As an organization, you have the freedom to unleash all your creativity in creating a unique, uniform, and recognizable appearance. With our in-house design department, Tricorp designs a one-of-a-kind product for your organization. Craftsmanship and the latest software enable us to turn ideas into perfectly fitting workwear. Often, it's in the details: buttons in a slightly different color on polos, perfectly matching your corporate identity, or stitching in a contrasting shade.

TRICORP SPECIALS

CHECKLIST

Always handy to have on hand: a checklist. To create a suitable offer and deliver the right quality, it's important to map out the customer's wishes and the requirements the clothing must meet. The questions below serve as a tool to prepare a special request as well as possible.

FOR HOW MANY WEARERS CAN I REQUEST A SPECIAL?
For Specials, we work with a minimum order quantity. This quantity depends on several factors, such as the country of production and the size of the order. For more information about the minimum order quantity, please contact your Tricorp representative.

CAN TRICORP USE A STANDARD TRICORP FABRIC OR DOES IT NEED TO BE SOURCED EXTERNALLY?
For Specials, we can use standard Tricorp fabric. If another fabric is desired, it must be sourced, which may result in longer delivery times.

WHICH TRICORP ARTICLE IS THE BASIS OF THE SPECIAL?
This is up to the customer to decide. Standard articles can be found later in the 'Article' section.

CAN I USE STANDARD TRICORP COLORS OR DO THEY NEED TO BE DYED ACCORDING TO THE CUSTOMER'S PMS COLOR?
A Special can be made using standard Tricorp colors. There is also the option to use your own corporate identity colors.

SHOULD THE CLOTHING FEATURE TRICORP SPECIALS LABELING OR PRIVATE LABELING OF THE END CUSTOMER?
This is up to the customer to decide.

DOES THE CLOTHING NEED TO BE PROVIDED WITH LOGOS? IF SO, WHAT TYPE OF LOGO (PRINT/EMBROIDERY)?
If you want to add a logo, it's important to indicate which type we should quote. You can choose to have the logo printed or embroidered. Workwear featuring a logo is, under certain conditions, tax-deductible. For waterproof workwear, embroidery is not possible.

SHOULD SPECIFIC WASHING INSTRUCTIONS BE TAKEN INTO ACCOUNT?
This depends on the type of work the wearers will perform. Tricorp offers a wide range of articles washable at 60°C, as well as items suitable for industrial washing. Provide washing instructions to the Specials team in time so they can select the right raw materials.

DOES THE CLOTHING NEED TO BE CERTIFIED ACCORDING TO CERTAIN STANDARDS? IF SO, WHICH ONES?
This also depends on the type of work the wearers will perform. Tricorp offers certified high-visibility and multinorm clothing. When submitting a Special request, specify which certifications the articles must meet, such as high-visibility standards.

DOES THE CUSTOMER WANT A REGULAR OR FITTED FIT?
Most Tricorp articles are available in both regular and fitted fits. The choice depends on the type of work and the preferences of the wearers.

TRICORP SPECIALS

STEP-BY-STEP PLAN

The design specialists at Tricorp can help create collections that match the wishes and needs of the wearers. To arrive at a suitable design, we start with a clear step-by-step plan.

1. ARTICLE

2. QUALITY

3. COLOR

4. DETAILS

TRICORP SPECIALS

STEP 1 // CHOOSE YOUR ARTICLE

The first step in developing a Special is choosing a base article. This can be an existing Tricorp item, but also an idea for a brand-new product.

TRICORP SPECIALS

REGULAR / FITTED

We believe that workwear should be comfortable for everyone, which is why we offer a choice between different fits, such as regular fit or a fitted version.

REGULAR

FITTED

TRICORP SPECIALS

STEP 2 // QUALITY

The second step in developing a Special is choosing the right quality. You can select from Tricorp's standard qualities, but we can also source alternative qualities if desired. Which type of knitting does the customer prefer? Single jersey, piqué, American fleece? For woven fabrics, there are also many possibilities when it comes to workwear, such as twill, plain weave, canvas weave, stretch, etc.

Professionals place high demands on their workwear. That's why we place high demands on our materials. After all, the material is the foundation for durable and comfortable workwear. An increasing part of our stock collections is produced with raw materials certified according to the OEKO-TEX Standard 100. This standard aims to limit the use of harmful substances as much as possible in relation to the health of end users. In addition, our clothing and accessories are produced without harmful dyes in accordance with the Dutch Commodities Act Decree on Azo dyes.

POLYESTER

Among synthetic fibers, polyester is a true all-rounder. It is ultra-strong, low-absorbing, wrinkle-free, and color- and shape-retentive. Polyester is often used as a raw material for various fabrics. This sturdy and straightforward synthetic fiber is highly versatile and can be easily combined with other fibers. Moreover, polyester is particularly suitable as a raw material for circular products

GEKAMD KATOEN

Cotton is available in different qualities, but only the best is good enough for our workwear. Combed cotton has a very high quality. By combing the cotton, the shortest and weakest fibers are removed, along with irregularities in the yarns. The longer the fiber, the better the yarn quality. Combing also prevents flaws in the yarns. The result is a sustainable piece of cotton of the best quality – a solid foundation for our workwear.

CORDURA

For various Tricorp products, Cordura is used. This fabric is extremely strong and resistant to heavy wear. Cordura is abrasion-resistant and highly durable.

RECYCLED POLYESTER EN KATOEN

To preserve raw materials, we work with recycled polyester from worn clothing. We feel responsible for reusing our own garments. These clothes are shredded into fibers and blended with new materials to create a strong new fiber, which is then spun into yarn. In addition, we also use PET bottles, which are highly suitable for processing into a strong polyester fiber. Yarn quality is crucial for longer product lifespan, and longevity itself is sustainable.

TRICORP SPECIALS

STEP 3 // COLOR

All colors are possible. If you choose a standard Tricorp color, you can select from the options below. Naturally, you can also choose a color based on a code such as Pantone. If you're looking for the exact shades from your corporate identity, we can always match the color code that fits best.

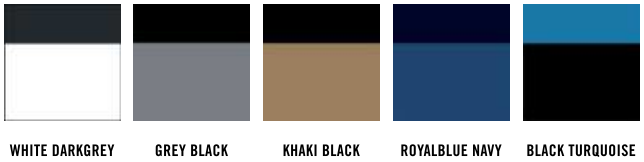

UNICOLOR

WHITE	CHRYSTAL	YELLOW	LIME	TANGERINE	DUSTY BLUE

EXPLANATION OF PICTOGRAMS

BREATHABLE

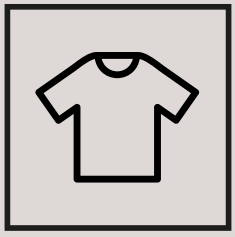

WATER-REPELLENT

HIGHLY WATER-RESISTANT

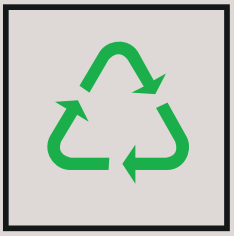

UV PROTECTION

REGULAR

FITTED

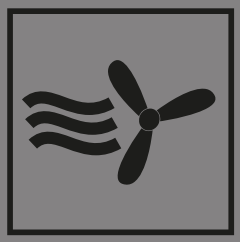

CIRCULAR

We call an article circular if it is a textile product made with recycled materials. For example, a Tricorp T-shirt with organic cotton and recycled polyester. This prevents the use of new polyester, saves water, and reduces CO2 emissions.

We distinguish between different types of recycled raw materials and how they are processed:

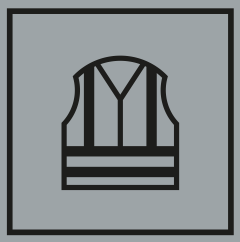

1. Used textiles, also known as post-consumer material;
2. Unused textiles, post-production, such as old stock, also called pre-consumer material;
3. Unused textiles, post-production, such as cutting waste, also called pre-consumer material;
4. Open-loop materials, such as collected recycled PET bottles, from which we make a high-quality fleece jacket.

WINDPROOF

HOME WASHABLE

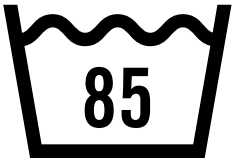

EN ISO 20471

Standard for high visibility. This clothing provides protection against the risk of not being seen, both in daylight and in the dark, under illumination from vehicle headlights. The x-value indicates the class of a product, based on the total surface area of fluorescent and reflective material. Classes can be 1, 2, or 3, with 3 being the highest.

COOLDRY

INDUSTRIALLY WASHABLE UP TO 85 °C

EN ISO 17353

EN 343

Workwear that meets this standard provides protection against weather influences (rain, fog, wet snow). The clothing and seams are tested for water resistance (class 1–4) and water vapor permeability (class 1–4). The X-value indicates water resistance, while the Y-value indicates breathability.

EXPLANATION OF WASHING SYMBOLS

FOLLOW THE WASHING INSTRUCTIONS CAREFULLY!

All our workwear is thoroughly tested and comes with a care label. If the instructions on this label are followed, the clothing will look like new for much longer. Always sort laundry by temperature and color. If there is an indication that garments should be washed separately, it is because a specific dye is dominant. Pre-washing is often unnecessary with modern detergents. For stubborn stains, use a stain remover before washing.

DETERGENT

Use the correct detergent for your clothing and follow the dosing instructions on the packaging. Do not use detergent with bleach (such as perborates, percarbonate, or sodium hypochlorite). Always use detergent at the temperature indicated on the care label.

DRYING

Do not tumble dry the clothing. Shake it out, straighten the seams, and hang it to dry. If you still wish to tumble dry, use a low temperature and a short cycle, as clothing shrinks and wears most during the final drying phase.

WASHING

MAXIMUM TEMPERATURE 95 °C, NORMAL SPINNING

MAXIMUM TEMPERATURE 95 °C, LIMITED SPINNING

HAND WASH

DO NOT WASH

BLEACHING

ANY BLEACHING PRODUCT PERMITTED

ONLY OX-GENIUM/CHLORINE-FREE BLEACHING PERMITTED

DO NOT BLEACH

DRYING

DRYING IN A DRYER POSSIBLE

DRYING IN A DRYER POSSIBLE, AT LOW TEMPERATURE

DO NOT TUMBLE DRY

PROFESSIONAL CLEANING

- PROFESSIONAL CLEANING IN TETRACHLOROETHENE, NORMAL PROCESS
- PROFESSIONAL CLEANING IN TETRACHLOROETHENE, SOFT PROCESS
- PROFESSIONAL CLEANING IN CARBON WATER, NORMAL PROCESS
- PROFESSIONAL CLEANING IN CARBON WATER, SOFT PROCESS
- NO PROFESSIONAL DRY CLEANING
- PROFESSIONAL WET WASHING, NORMAL PROCESS
- PROFESSIONAL WET WASHING, SOFT PROCESS
- PROFESSIONAL WET WASHING, VERY SOFT PROCESS
- DO NOT WASH WET

IRONING

- IRON AT 200 °C MAXIMUM
- IRON AT 150 °C MAXIMUM
- IRON AT 110 °C MAXIMUM
- DO NOT IRON

The fabric care symbols are intended to provide the end user with the correct information for the treatment of textile products. The processes indicated on the label prevent irreversible damage. The numbers in the tub indicate the maximum temperature in degrees Celsius, which must not be exceeded. The bar below it indicates a milder treatment by using a shortened programme, adding more water and not loading the dryer too full.
